

CHIP CARVING LESSON  
SEPTEMBER 14, 2019

Draw two perpendicular lines about 4" long.  
Mark each axis with 4 tick marks space  
1/4" apart.  
If you want a border, draw two marks  
1/8" apart.

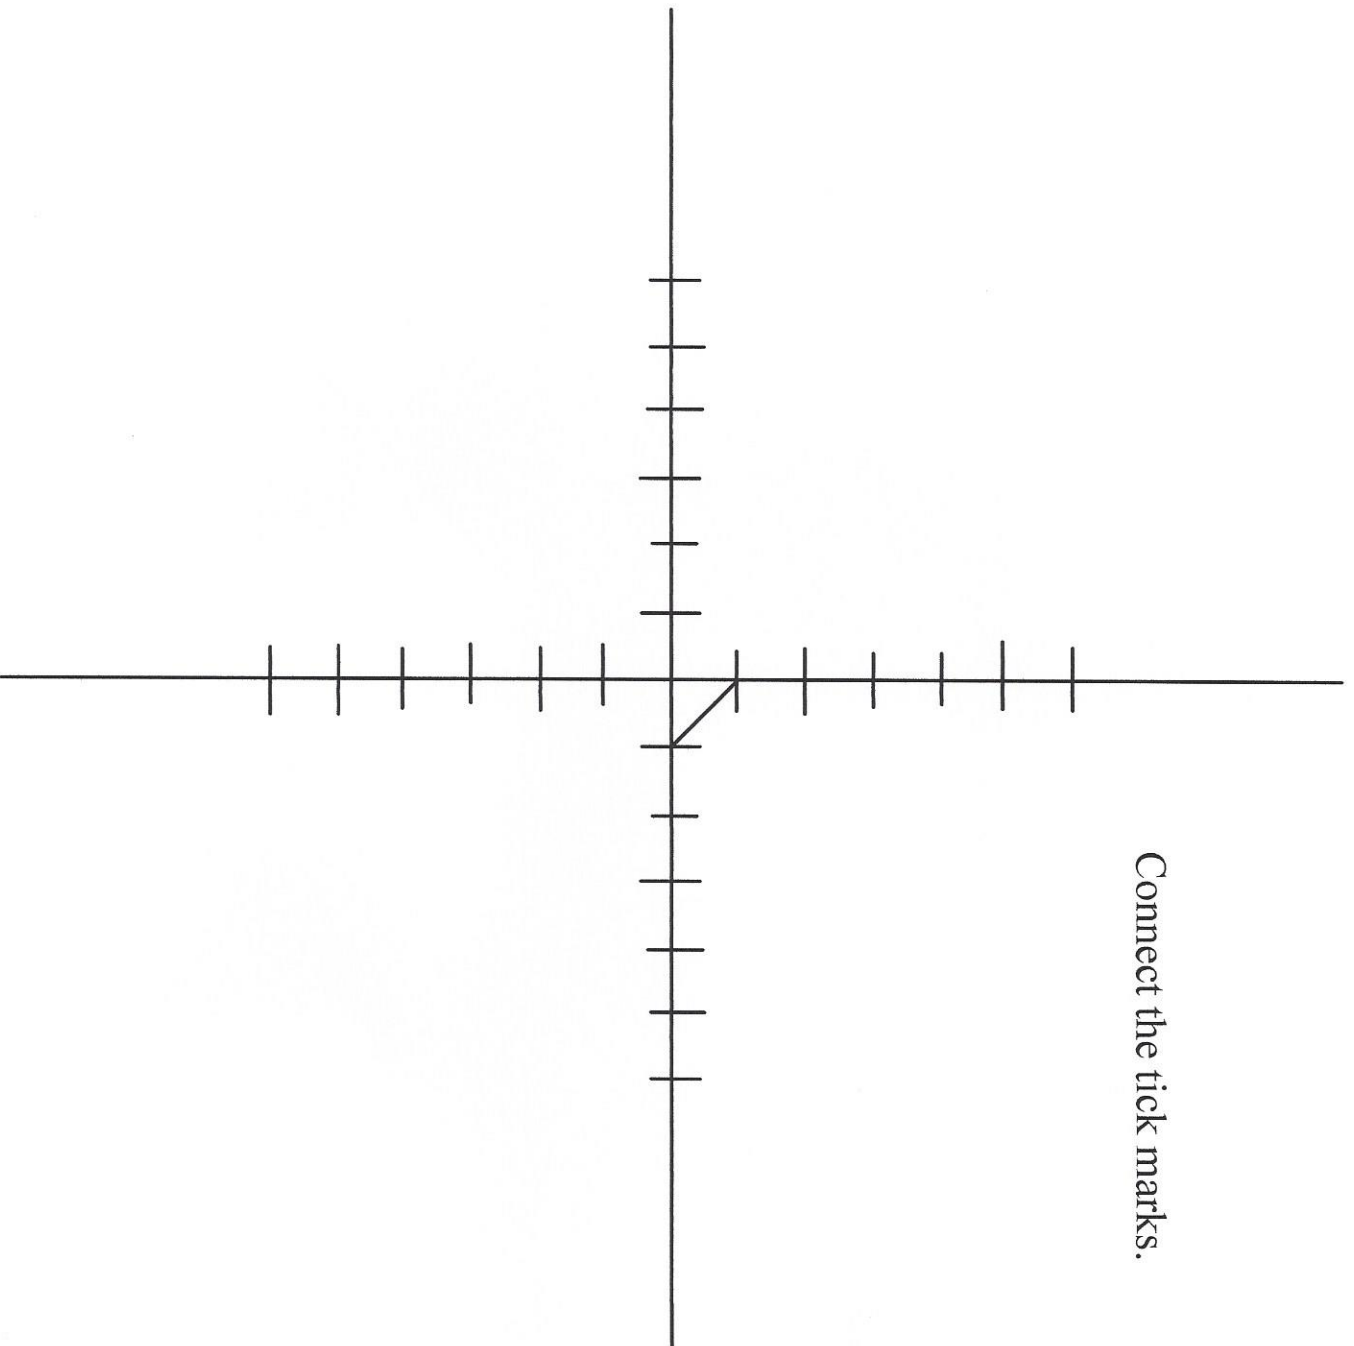

LESTON RESULT

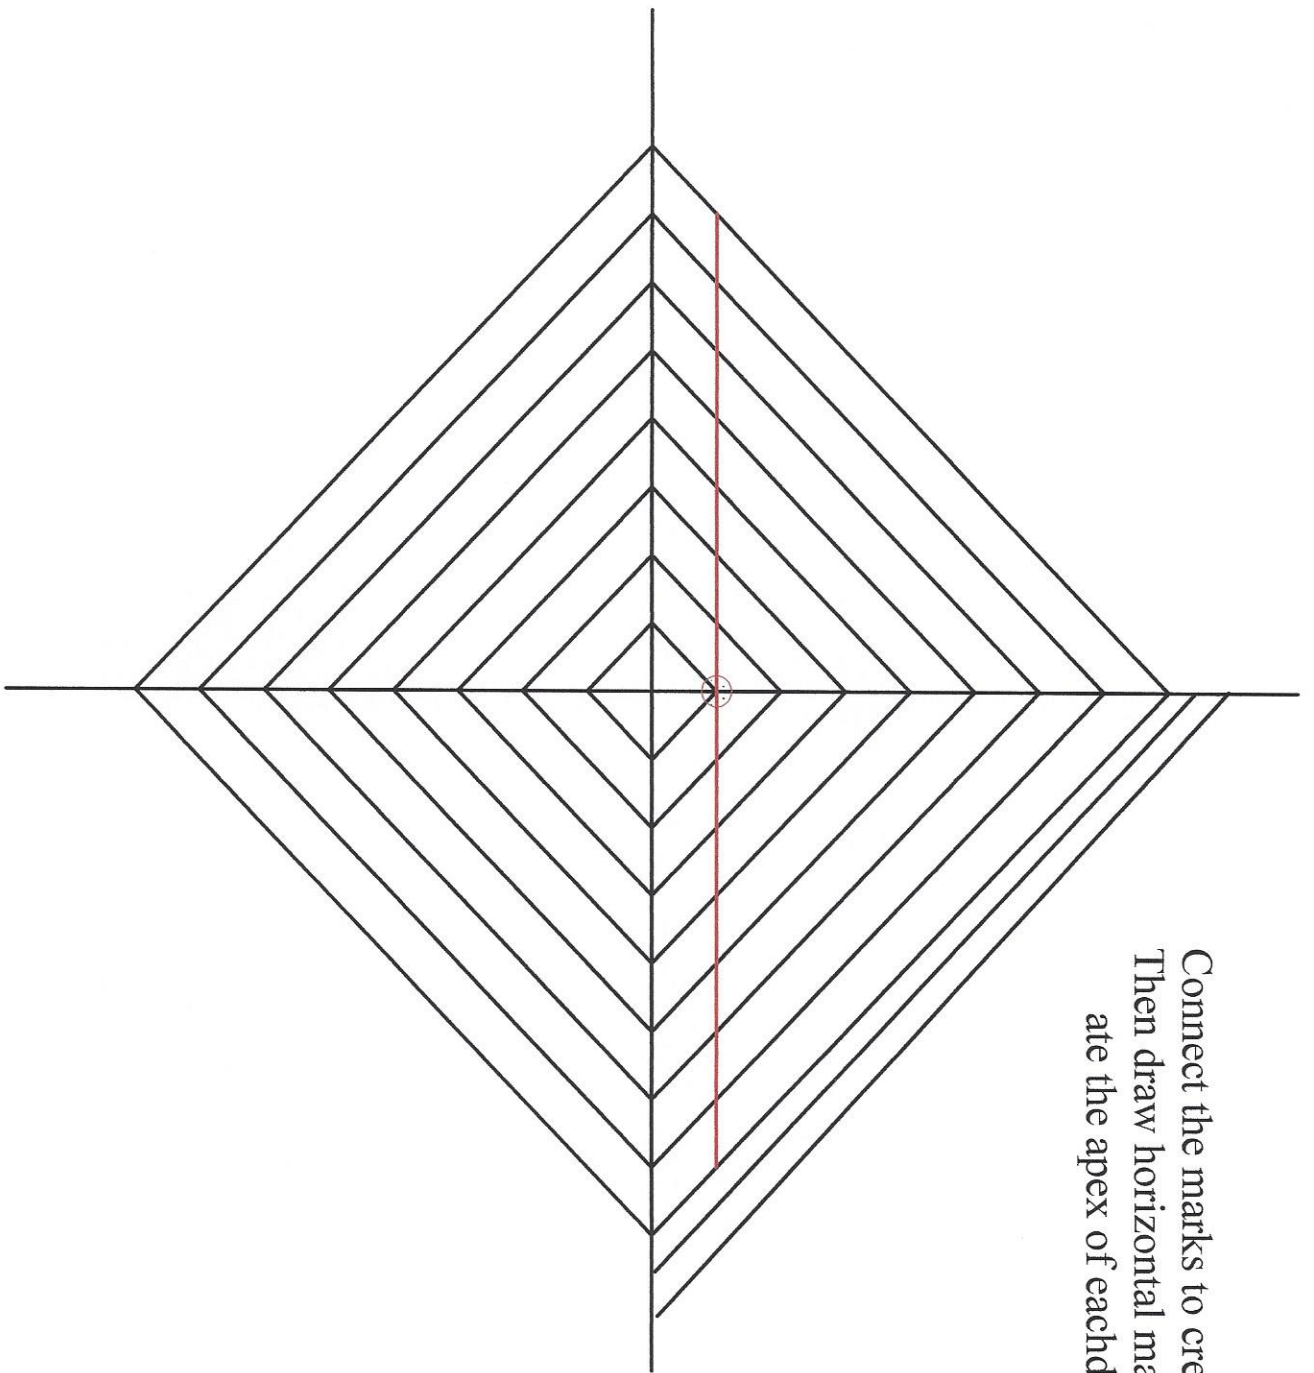

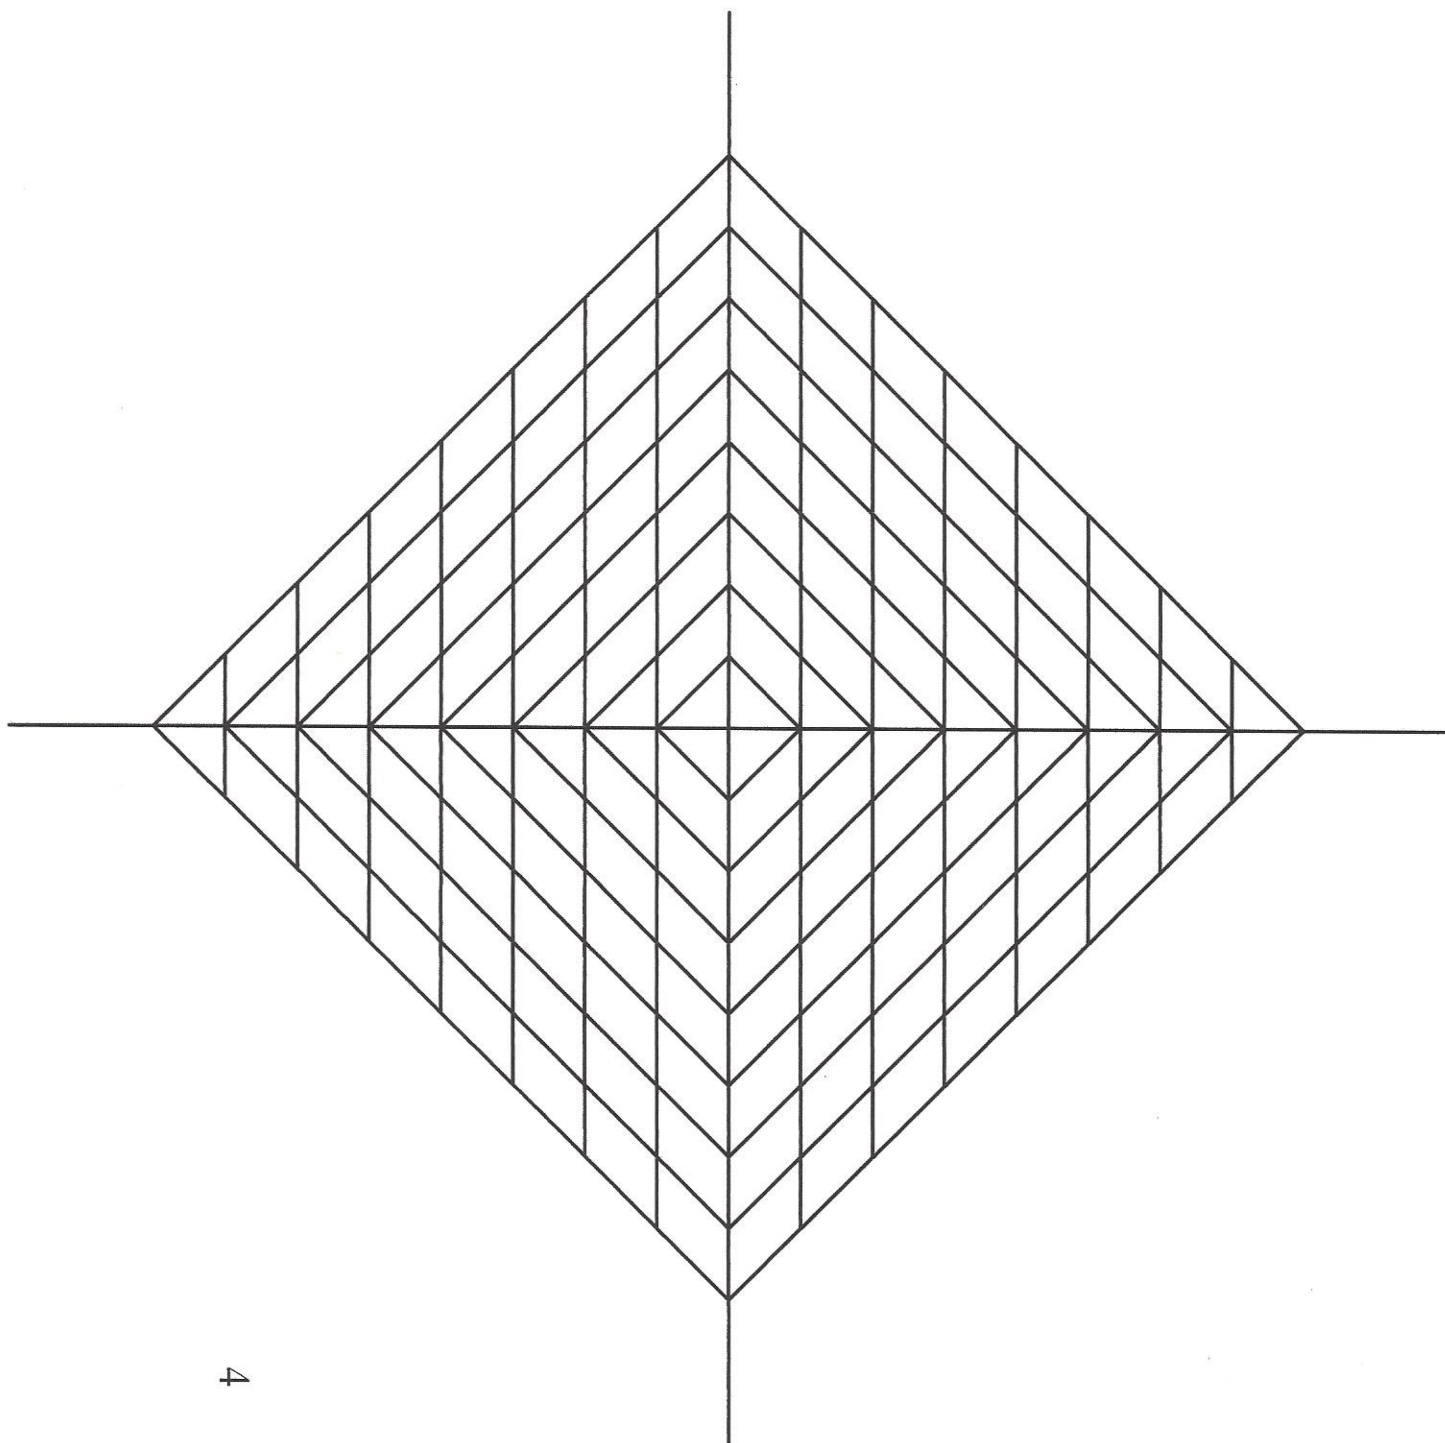

Connect the tick marks.

Connect the marks to create diamonds  
Then draw horizontal marks with the grain  
ate the apex of eachdiamond.

Start in the middle. and take the 3 sided chips working clockwise. Take each chip out cutting the sides in the order indicated.

Always try to cut away from chips already out.
